

### **Chief of Party**

The Axios Foundation seeks candidates for a Chief of Party for an upcoming USAID funded Health Evaluations and Program Support project for the East Africa region. The position will be based in Nairobi, Kenya.

#### **Responsibilities**

- Define and manage overall contract requirements: including staffing, and cost and quality control of all tasks and assignments undertaken to achieve program objectives
- Serve as the main point of contact with USAID and the Axios home office
- Ensure effective and efficient performance for all aspects of this contract, overseeing all quality control and reporting
- Interact professionally with senior Mission, Embassy, and government officials
- Represent Axios on all program related matters

#### **Qualifications**

- At least 15 years of experience in international development, including experience and/or technical knowledge in designing, managing and evaluating multi-million dollar development projects;
- At least five (5) years of experience as a COP or senior field management experience such as Project Director, Regional Director or Country Director role, demonstrating professional interaction with senior U.S. and foreign government officials;
- Prior experience in supervising long-term field staff and short-term U.S., third country, and local experts;
- Experience and/or knowledge of Indefinite Delivery Indefinite Quantity (IDIQ) and Task Order contracting mechanisms
- A graduate degree in the field of management, business administration, or a related field, or a bachelor's degree and 5 years' experience in addition to the required minimums; and
- Excellent American English writing skills and speaking ability.

### **Senior Analysis, Monitoring & Evaluation Advisor**

The Axios Foundation seeks candidates for a Senior Analysis, Monitoring, and Evaluation Advisor for an upcoming USAID funded Health Evaluations and Program Support project for the East Africa region. The position will be based in Nairobi, Kenya.

#### **Responsibilities**

- Oversee production and ensure quality of all assessments, data, analytical reports, and evaluations, including the testing of the development hypothesis
- Design and oversee evaluations, analyses, and assessments; this will include the design of the evaluation methodology, participatory data collection methods and protocols for both performance and impact evaluations
- Provide technical assistance and training, as needed, for USAID, IP and GOK staff (to the extent they are involved in USG projects)

#### **Qualifications**

- At least 7 years of international experience in the design and management of evaluations (impact and performance), analyses and assessments, including the design of the evaluation methodology, participatory data collection methods and protocols, and data verification techniques
- At least seven years of demonstrated experience developing performance management plans, monitoring project implementation, and verifying data from large development projects
- Knowledge of PEPFAR indicators
- A graduate degree in the field of evaluation, international development or a related technical field.
- At least seven years of experience recruiting, forming and successfully managing teams, and ensuring the quality of their products

- Excellent American English writing skills and speaking ability

### **Public Health Specialist**

The Axios Foundation seeks candidates for a Public Health Specialist for an upcoming USAID funded Health Evaluations and Program Support project for the East Africa region. The position will be based in Nairobi, Kenya.

#### Responsibilities

- Work with the Analysis and M&E Advisor in discussions with USAID on the interpretation of task orders; the Specialist will advise the discussions on the development of evaluation questions and the specific data collection methods for every broad evaluation question
- Review and advise on prospective consultants and organizations to help build database of qualified local and international experts
- Provide quality assurance checks on the technical presentation of findings, presentations and recommendations coming out of assessments and evaluations by the consultants

#### Qualifications

- At least seven (7) years of professional experience working in international health program management and evaluation; evaluation specialty in public health will be an added advantage;
- A graduate degree in international public health or related field;
- Proven proficiency in their technical areas and demonstrated possession of health program assessment skills and experience;
- Excellent computer, writing and communication skills;
- Proficient in American English; and
- A working knowledge of health issues affecting Kenyan, Eastern and/or sub-Saharan African populations and understanding of the impediments to health within the African context

### **Short Term Technical Assistance – Health Experts**

The Axios Foundation seeks mid-level and senior level Health Experts for potential Short Term Technical Assistance (STTA) assignments for an upcoming USAID funded Health Evaluations and Program Support project. The project will cover the East African region. Assistance will be required for a number of activities including analysis and assessment, program design, project management, evaluation, and logistical/administrative/facilitation support.

The anticipated STTA roles include Health/Population/Nutrition/HIV-AIDS Specialists; Private Sector/Public Finance/Insurance Analysts; Monitoring, Evaluation and Research Specialists; Human Capacity Development Specialists; Statistician/Data Analysts; Policy Analysts; Education Specialists; Outreach and Communications Specialists; Social Scientist/Technical Advisors; Gender Analysts; Anti-Trafficking Analysts; Democracy and Governance Specialists.

### **Application Details**

To apply for these positions, please email your CV to [sandeep.shamasunder@axiosfoundation.org](mailto:sandeep.shamasunder@axiosfoundation.org). Include the position title in the subject line. STTA applicants should also include the role(s) for which they would like to be considered. Closing date for applications: June 30, 2013.

Axios Foundation (AF) is a US-based public charity focused on the implementation of programs to drive access to care in the developing world. Axios Foundation engages with local stakeholders, opinion leaders, government authorities and health facility management to assess and improve local infrastructure, including hospitals and laboratories, and to manage effective supply chain management systems and disease management programs. In addition, the Foundation manages a number of international drug donation programs.
